

# SAFETY DATA SHEET

## SEPTONE TW20 TRUCKWASH

Infosafe No.: 5APFL  
ISSUED Date : 01/04/2015  
ISSUED by: ITW Polymers & Fluids NZ

### 1. IDENTIFICATION

#### GHS Product Identifier

SEPTONE TW20 TRUCKWASH

#### Product Code

ATTW20, ATTW1, ATTW5, ATTW200, ATTW1000

#### Company Name

ITW AAMTECH (ABN 63 004 235 063)

#### Address

1-9 NINA LINK DANDENONG SOUTH  
VIC 3175 AUSTRALIA

#### Telephone/Fax Number

Tel: 1800 177 989

Fax: +61 2 9725 4698; 1800 308 556

#### Emergency phone number

1800 638 556; 1800 039 008; 0800 2436 2255

#### E-mail Address

info@aamtech.com.au

#### Recommended use of the chemical and restrictions on use

Truck wash

### 2. HAZARD IDENTIFICATION

#### GHS classification of the substance/mixture

Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) including Work, Health and Safety Regulations, Australia.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

Not classified as Hazardous according to the Hazardous Substances (Minimum Degrees of Hazard) Regulations 2001, New Zealand.

Not classified as Dangerous Goods for transport according to the New Zealand Standard NZS 5433:2012 Transport of Dangerous Goods on Land.

#### Precautionary statement – Prevention

Do not get in eyes, on skin, or on clothing.

Wear protective gloves/protective clothing/eye protection/face protection.

#### Precautionary statement – Response

IF SWALLOWED: rinse mouth. Do NOT induce vomiting.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Call a POISON CENTER or doctor/physician if you feel unwell.

If eye irritation persists: Get medical advice/attention.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

---

#### Ingredients

Name	CAS	Proportion
Water and Colour		60-100 %
Ingredient determined not to be hazardous	Not required	10-30 %
Triethanolamine	102-71-6	0-<2 %

### 4. FIRST-AID MEASURES

---

#### Inhalation

Remove to fresh air. If rapid recovery does not occur, obtain medical attention.

#### Ingestion

If swallowed DO NOT induce vomiting. Remove any material in the mouth. Give water and seek medical advice. If patient does vomit, give more water.

#### Skin

Remove contaminated clothing and wash affected areas with water. If irritation persists see a doctor. Wash contaminated clothing before re-use.

#### Eye contact

If in eyes, hold eyes open, flush with water for at least 15 minutes. If symptoms persist, seek medical attention.

#### First Aid Facilities

Normal washroom facilities and an eye wash is generally suitable when handling this product however it is recommended that first aid requirements be assessed on individual workplace risk, taking into account the likelihood and severity of the risk.

#### Advice to Doctor

Treat symptomatically.

### 5. FIRE-FIGHTING MEASURES

---

#### Fire Fighting Measures

This product is not flammable under normal conditions of use and storage. It does not support combustion.

#### Suitable Extinguishing Media

Use the extinguisher appropriate to the principle fire hazard or to the source of the fire.

#### Hazards from Combustion Products

If this product is involved in a fire, the water contained in it may evaporate, leaving a residue that may burn. If combustion does occur, carbon monoxide and other unidentifiable organic compounds may be produced.

#### Special Protective Equipment for fire fighters

No special fire-fighting clothing is necessary on account of this product. However protective equipment should be worn appropriate to the principle fire hazard or the source of the fire.

### 6. ACCIDENTAL RELEASE MEASURES

---

#### Methods And Materials For Containment And Cleaning Up

Slippery when spilt.

Personnel involved in cleaning up spills should wear non-slip enclosed footwear, rubber or PVC gloves and chemical goggles. Cordon off the spillage area. Isolate the source of the spillage or leak. Contain the spillage using a suitable absorbent (soil or sand, inert material, vermiculite). Collect and seal in properly labelled plastic containers for disposal. Wash area down with excess water to remove any remaining residues.

## 7. HANDLING AND STORAGE

---

### Precautions for Safe Handling

Store in plastic containers in a cool, dry, clean well-ventilated area away from foodstuffs.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

---

### Occupational exposure limit values

Substance	Regulations	Exposure Duration	Exposure Limit	Units	Notes
Triethanolamine		TWA	5	mg/m <sup>3</sup>	

### Biological Limit Values

No Biological Limit Values are allocated to this product.

### Other Exposure Information

Safe Work Australia has designated triethanolamine as a substance known to act as a sensitiser in some individuals. The available evidence suggests that sensitisation is more likely to occur in individuals with compromised skin or skin conditions e.g. cuts, abrasions, dermatitis. Individuals with existing skin conditions or damage should avoid skin contact as a precautionary measure.

### Appropriate Engineering Controls

Natural ventilation is adequate under normal conditions of use. Keep containers closed when not in use.

### Eye Protection

Safety glasses are recommended during normal conditions of use. When handling concentrate in large amounts or if splashing is likely to occur, the wearing of safety glasses with side shields or chemical goggles is highly recommended.

### Hand Protection

PVC or rubber gloves should be worn.

### Other Information

Use sensible work practices that reduce operator exposure to the product.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

---

### Appearance

Opaque green, viscous liquid.

### Odour

Neutral odour

### Boiling Point

100°C

### Solubility in Water

Complete

### Specific Gravity

Approx 1.111 at 25 degrees C

### pH

7.5

### Vapour Pressure

Not measured

### Evaporation Rate

Same as water

### Volatile Component

77% w/w

### Flash Point

This product will not flash and does not support combustion

**Flammability**

This product is not flammable under the conditions of use and does not support combustion.

**Flammable Limits - Lower**

Not applicable. This product is an aqueous solution.

---

**10. STABILITY AND REACTIVITY**

---

**Chemical Stability**

Stable to heat and light

**Conditions to Avoid**

None known

**Incompatible materials**

Strong oxidising agents

**Hazardous Polymerization**

Will not occur

---

**11. TOXICOLOGICAL INFORMATION**

---

**Ingestion**

Mildly irritating

**Inhalation**

Not normally an inhalation risk. High concentrations of spray mists may cause irritation of the respiratory tract.

**Skin**

May cause skin irritation. Repeated or prolonged contact may lead to de-fatting of the skin, which can lead to the onset of dermatitis.

**Eye**

May cause stinging and watering of the eye. A moderate eye irritant.

**Mutagenicity**

None of the components of this product are considered to be mutagens.

**Skin Sensitisation**

Triethanolamine (TEA), which is present at less than 2%w/w in this product, has been reported to cause allergic contact dermatitis and eczema in workers upon repeated exposure. A review in 2009 by Lessmann H, et al. found that the risk of skin sensitisation on healthy skin by TEA seems to be very low and hence had a very low sensitisation potential in humans.

**Reproductive Toxicity**

None of the components of this product are considered to be reproductive toxins.

---

**12. ECOLOGICAL INFORMATION**

---

**Short Summary of Assessment of Environmental Impact**

At normal use levels and following standard effluent treatment, this product is expected to exhibit low toxicity towards aquatic organisms. However, the undiluted material should be prevented from entering waterways. The anionic and nonionic surfactants used in this product are readily biodegradable. None of the components of this product are expected to bioaccumulate.

---

**13. DISPOSAL CONSIDERATIONS**

---

**Disposal considerations**

Allow controlled access to the effluent system whilst diluting the product with a large excess of water.

**Waste Disposal**

This product is a rapid emulsion breaker which enables grease and oil emulsified during use of the product to rapidly separate in a grease trap, allowing the resultant water layer to be drained to the sewer as treated trade waste.

**Container Disposal**

Empty containers are recyclable.

## 14. TRANSPORT INFORMATION

---

### Transport Information

Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.

#### Air Transport

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

#### Marine Transport

Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

### U.N. Number

None Allocated

### UN proper shipping name

None Allocated

### Transport hazard class(es)

None Allocated

### IMDG Marine Pollutant (MP)

None of the components of this product is considered by IMO to be a Marine Pollutant.

## 15. REGULATORY INFORMATION

---

### Poisons Schedule

Not Scheduled

### Australia (AICS)

All ingredients are listed.

## 16. OTHER INFORMATION

---

### Date of preparation or last revision of SDS

Replaces SDS dated April 2010

DISCLAIMER:

This Safety Data Sheet summarises at the date of issue to the best of our knowledge, the health and safety hazards of the product and how to safely handle and use the product.

As ITW AAMTech cannot anticipate or control the conditions under which the product is used, customers are encouraged, prior to usage, to assess and control the risks associated with their use of the product.

Data sheets from unauthorised sources may contain information that is no longer current or accurate.

This SDS is valid for 5 years from date of issue. However, this version may be revoked and revised at any time, and users should contact ITW AAMTech to ensure they are in possession of the latest version.
