

# SAFETY DATA SHEET

## MOULDZAP

ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 2015/830  
AS AMENDED BY UK REACH REGULATIONS SI 2019/758

Date of issue: 12/02/2025  
Version: 1.0

### SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

#### 1.1 Product identifier

|              |          |
|--------------|----------|
| Product name | MOULDZAP |
| Product code | MZ-V     |
| Product type | Mixture  |

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

|                      |                                                      |
|----------------------|------------------------------------------------------|
| Identified Use(s)    | Treatment of surfaces affected by mould and staining |
| Uses advised against | Anything other than the above.                       |

#### 1.3 Details of the supplier of the safety data sheet

|                        |                                                        |
|------------------------|--------------------------------------------------------|
| Company Identification | 16 George Young Street<br>Auburn NSW 2144<br>Australia |
|------------------------|--------------------------------------------------------|

|                           |                            |
|---------------------------|----------------------------|
| Telephone                 | 02 9738 7444               |
| E-mail (competent person) | reception@cleanplus.com.au |

#### 1.4 Emergency telephone number

|                     |              |                                                                            |
|---------------------|--------------|----------------------------------------------------------------------------|
| Emergency Phone No. | 1800 201 700 | Only available during office hours.<br>Monday to Friday 09.00 - 17.00, GMT |
| Languages spoken    | English      |                                                                            |

### SECTION 2: HAZARDS IDENTIFICATION

#### 2.1 Classification of the substance or mixture

|                                                                                   |                                                           |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------|
| 2.1.1 The retained CLP Regulation (EU) No 1272/2008, as amended for Great Britain | Eye Dam. 1; H318<br>Acute Tox. 4; H302<br>STOT SE 3; H335 |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------|

#### 2.2 Label elements

According to the retained CLP Regulation (EU) No 1272/2008, as amended for Great Britain

|              |          |
|--------------|----------|
| Product name | MOULDZAP |
|--------------|----------|

|           |                |
|-----------|----------------|
| Contains: | Not applicable |
|-----------|----------------|

Hazard Pictogram(s)

|                |         |
|----------------|---------|
| Signal Word(s) | WARNING |
|----------------|---------|

|                     |                                                                             |
|---------------------|-----------------------------------------------------------------------------|
| Hazard Statement(s) | H318: Causes serious eye damage.<br>H335: May cause respiratory irritation. |
|---------------------|-----------------------------------------------------------------------------|

# SAFETY DATA SHEET

## MOULDZAP

ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 2015/830  
AS AMENDED BY UK REACH REGULATIONS SI 2019/758

Date of issue: 12/02/2025  
Version: 1.0

### Precautionary Statement(s)

P210: Keep away from heat, hot surfaces, sparks, open flames and other  
P280: Wear protective gloves/protective clothing/eye protection/face protection.  
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes.  
Remove contact lenses, if present and easy to do. Continue rinsing.  
P337+P313: If eye irritation persists: Get medical advice/attention.  
P261: Avoid breathing vapours.  
P312: Call a POISON CENTER if you feel unwell.  
P403+P233: Store in a well-ventilated place. Keep container tightly closed.

### Supplemental information

#### 2.3 Other hazards

None Known

## SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

### 3.1 Substances Not applicable

### 3.2 Mixtures

Classification: The retained CLP Regulation (EU) No 1272/2008, as amended for Great Britain

| Chemical identity of the substance | %W/W    | CAS No.    | EC No.    | UK-REACH Registration No.            | Hazard classification                                         |
|------------------------------------|---------|------------|-----------|--------------------------------------|---------------------------------------------------------------|
| Sodium Carbonate Peroxyhydrate     | 25 - 50 | 15630-89-4 | 239-707-6 | Not yet assigned in the supply chain | Oxid. Solid 3; H272<br>Acute Tox. 4; H302<br>Eye Dam. 1; H318 |
| Citric Acid                        | 5 - 15  | 77-92-9    | 201-069-1 | Not yet assigned in the supply chain | Eye Irrit. 2; H319<br>STOT SE 3; H335                         |

For full text of H phrases see section 16.

## SECTION 4: FIRST AID MEASURES

### 4.1 Description of first aid measures

Self-protection of the first aider

No action should be taken involving personal risk. Wear appropriate personal protective equipment. Avoid contact with skin and eyes. Contaminated clothing should be laundered before reuse. Avoid breathing vapours. In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

Inhalation

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/doctor if you feel unwell.

Skin contact

IF ON SKIN: Gently wash with plenty of soap and water. Remove contaminated clothing and wash clothing before reuse. If skin irritation or rash occurs: Get medical advice/attention.

Eye contact

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Flush eyes with water for at least 15 minutes. If irritation develops and persists, get medical attention.

Ingestion

IF SWALLOWED: rinse mouth. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a POISON CENTER/doctor if you feel unwell. If possible show this SDS. Failing this, show the packaging or label.

Causes serious eye irritation. May cause respiratory irritation.

### 4.2 Most important symptoms and effects, both acute and delayed

# SAFETY DATA SHEET

## MOULDZAP

ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 2015/830  
AS AMENDED BY UK REACH REGULATIONS SI 2019/758

Date of issue: 12/02/2025  
Version: 1.0

- |     |                                                                                   |                        |
|-----|-----------------------------------------------------------------------------------|------------------------|
| 4.3 | <b>Indication of any immediate medical attention and special treatment needed</b> | Treat symptomatically. |
|-----|-----------------------------------------------------------------------------------|------------------------|

### SECTION 5: FIREFIGHTING MEASURES

- |     |                                                                                              |                                                                                                                                                                                                                                                                                        |
|-----|----------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5.1 | <b>Extinguishing media</b><br>Suitable extinguishing media<br>Unsuitable extinguishing media | In case of fire, use water spray, foam, dry powder or CO2 for extinction.<br>Do not use water jet. Direct water jet may spread the fire.                                                                                                                                               |
| 5.2 | <b>Special hazards arising from the substance or mixture</b>                                 | In case of fire may be liberated: Carbon monoxide, Carbon dioxide                                                                                                                                                                                                                      |
| 5.3 | <b>Advice for firefighters</b>                                                               | Fire fighters should wear complete protective clothing including self-contained breathing apparatus. If it is safe to do so, containers should be removed from fire area because they are likely to rupture under fire conditions. Do not allow to enter into surface water or drains. |

### SECTION 6: ACCIDENTAL RELEASE MEASURES

- |     |                                                                            |                                                                                                                                                                                                                                                                                                                                                                         |
|-----|----------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6.1 | <b>Personal precautions, protective equipment and emergency procedures</b> | No action should be taken involving personal risk. Provided it is safe to do so, isolate the source of the leak. Wear appropriate personal protective equipment. Avoid breathing vapours. Avoid contact with skin and eyes. Ensure adequate ventilation. Remove contaminated clothing and wash all affected areas with plenty of water. When using do not eat or drink. |
| 6.2 | <b>Environmental precautions</b>                                           | Not applicable.                                                                                                                                                                                                                                                                                                                                                         |
| 6.3 | <b>Methods and material for containment and cleaning up</b>                | Stop leak if safe to do so. Clean surface thoroughly to remove residual contamination. Use non-sparking tools. Adsorb spillages onto sand, earth or any suitable adsorbent material. Never return spills in original containers for re-use. Ventilate the area and wash spill site after material pick-up is complete.                                                  |
| 6.4 | <b>Reference to other sections</b>                                         | See sections 8 and 13.                                                                                                                                                                                                                                                                                                                                                  |

### SECTION 7: HANDLING AND STORAGE

- |     |                                                                     |                                                                                                                                                                                                                                                                                                                                                             |
|-----|---------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 7.1 | <b>Precautions for safe handling</b>                                | <b>Provide adequate ventilation when using the material</b> and follow the principles of good occupational hygiene to control personal exposures. Wear protective gloves and eye/face protection. Wash hands before breaks and after work. Avoid breathing vapours. Avoid contact with skin and eyes. Do not eat, drink or smoke at the work place.         |
| 7.2 | <b>Conditions for safe storage, including any incompatibilities</b> | Keep only in original packaging. Keep container tightly closed and in a well-ventilated place. Protect from direct sunlight. Store in a cool/low-temperature, well-ventilated (dry) place away from heat and ignition sources. Bund storage facilities to prevent soil and water pollution in the event of spillage. Keep/Store only in original container. |
|     | storage temperature                                                 | Ambient temperatures.                                                                                                                                                                                                                                                                                                                                       |
|     | Incompatible materials                                              | Moisture, strong acids, bases and oxidizing agents.                                                                                                                                                                                                                                                                                                         |
| 7.3 | <b>Specific end use(s)</b>                                          | See section: 1.2                                                                                                                                                                                                                                                                                                                                            |

# SAFETY DATA SHEET

## MOULDZAP

ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 2015/830  
AS AMENDED BY UK REACH REGULATIONS SI 2019/758

Date of issue: 12/02/2025  
Version: 1.0

### SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1 Control parameters

8.1.1 Occupational exposure limits None assigned

8.1.2 Biological limit value None assigned

#### 8.1.3 PNECs and DNELs

##### Sodium Carbonate Peroxyhydrate

DNEL:

Dermal 12.8 mg/cm<sup>2</sup> (Local, Chronic)

Inhalation 5 mg/m<sup>3</sup> (Local, Chronic)

Dermal 12.8 mg/cm<sup>2</sup> (Local, Acute)

Dermal 6.4 mg/cm<sup>2</sup> (Local, Chronic)

Dermal 6.4 mg/cm<sup>2</sup> (Local, Acute)

PNEC:

0.035 mg/L (Water - Fresh)

0.035 mg/L (Water - Intermittent release)

0.035 mg/L (Water - Marine)

16.24 mg/L (STP)

#### 8.2 Exposure controls

##### 8.2.1 Appropriate engineering controls

Guarantee that the eye flushing systems and safety showers are located close to the working place. Provide adequate ventilation, including appropriate local extraction if dusts, fumes or vapours are likely to be evolved.

##### 8.2.2 Individual protection measures, such as personal protective equipment

Protective clothing should be selected specifically for the working place, depending on concentration and quantity of the hazardous substances handled. The resistance of the protective clothing to chemicals should be ascertained with the respective supplier. Take care for general good hygiene and housekeeping. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment. Wash contaminated clothing before reuse. Avoid contact with skin, eyes and clothes. Ensure safe systems of work or equivalent arrangements are in place to manage risks.

Eye/ face protection

Wear eye protection with side protection (EN166).

Skin protection

Hand protection: Wear impervious gloves (EN374). Suitable material: PVC, Nitrile rubber.

Body protection: Suitable material: Wear impervious protective clothing, including boots, lab coat, apron or coveralls, as appropriate, to prevent skin contact.

Respiratory protection

**In case of inadequate ventilation wear respiratory protection.**  
Recommended: EN143 Type A-P2

Thermal hazards

Not applicable

### 9.1 Information on basic physical and chemical properties

|                                              |                                              |
|----------------------------------------------|----------------------------------------------|
| Appearance                                   | White granulated solid                       |
| Odour                                        | Acetic - vinegar                             |
| Odour threshold                              | No data available                            |
| pH                                           | 6.5 - 8.5 after reconstitution as instructed |
| Melting point/freezing point                 | No data available                            |
| Initial boiling point and boiling range      | No data available                            |
| Flash point                                  | > 100 °C                                     |
| Evaporation rate                             | No data available                            |
| Flammability (solid, gas)                    | No data available                            |
| Upper/lower flammability or explosive limits | No data available                            |
| Vapour pressure                              | No data available                            |
| Vapour density                               | No data available                            |
| Relative density                             | No data available                            |
| Solubility(ies)                              | Highly soluble in water                      |
| Partition coefficient: n-octanol/water       | No data available                            |
| Auto-ignition temperature                    | > 100 °C                                     |
| Decomposition temperature                    | > 100 °C                                     |
| Viscosity                                    | Waterlike                                    |
| Explosive properties                         | May intensify fire; oxidiser                 |
| Oxidising properties                         | No data available                            |

### 9.2 Other information

None Known

## SECTION 10: STABILITY AND REACTIVITY

|                                         |                                                                                                      |
|-----------------------------------------|------------------------------------------------------------------------------------------------------|
| 10.1 Reactivity                         | Stable under normal conditions                                                                       |
| 10.2 Chemical stability                 | Stable under normal conditions                                                                       |
| 10.3 Possibility of hazardous reactions | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |
| 10.4 Conditions to avoid                | Avoid high temperatures or direct sunlight. Avoid contact with Strong mineral acids.                 |
| 10.5 Incompatible materials             | Keep away from oxidising agents and strong bases.                                                    |
| 10.6 Hazardous decomposition products   | In case of fire may be liberated: Carbon monoxide and carbon dioxide.                                |

## SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

|                                   |                                                                                  |
|-----------------------------------|----------------------------------------------------------------------------------|
| Acute toxicity - Ingestion        | Mixture: Acute Tox. 4; H302: Harmful if swallowed.                               |
| Sodium Carbonate Peroxyhydrate    | Acute Tox. 4; H302: Harmful if swallowed.                                        |
|                                   | Harmful by ingestion. (Rat) (OECD 2002)                                          |
|                                   | Irritating to eyes. (rabbit) (OECD 405)                                          |
| Acute toxicity - Inhalation       | Mixture: Based upon the available data, the classification criteria are not met. |
|                                   | Calculated acute toxicity estimate (ATE) > 5 mg/l (Dusts)                        |
| Acute toxicity - Skin contact     | Mixture: Based upon the available data, the classification criteria are not met. |
|                                   | Calculated acute toxicity estimate (ATE) >2,000 mg/kg.                           |
| Skin corrosion/irritation         | Mixture: Based upon the available data, the classification criteria are not met. |
| Serious eye damage/irritation     | Mixture Eye Dam. 1; H318: Causes serious eye damage.                             |
| Sodium Carbonate Peroxyhydrate    | Eye Dam. 1; H318: Causes serious eye damage.                                     |
|                                   | Irritating to eyes. (rabbit) (OECD 405)                                          |
| Citric Acid                       | Eye Irrit. 2; H319: Causes serious eye irritation.                               |
|                                   | Irritating to eyes. (rabbit) (OECD 405)                                          |
| Respiratory or skin sensitisation | Mixture: Based upon the available data, the classification criteria are not met. |
| Germ cell mutagenicity            | Mixture: Based upon the available data, the classification criteria are not met. |

# SAFETY DATA SHEET

## MOULDZAP

ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 2015/830  
AS AMENDED BY UK REACH REGULATIONS SI 2019/758

Date of issue: 12/02/2025  
Version: 1.0

|      |                               |                                                                                  |
|------|-------------------------------|----------------------------------------------------------------------------------|
|      | <b>Carcinogenicity</b>        | Mixture: Based upon the available data, the classification criteria are not met. |
|      | <b>Reproductive toxicity</b>  | Mixture: Based upon the available data, the classification criteria are not met. |
|      | <b>STOT - single exposure</b> | Mixture STOT SE 3; H335: May cause respiratory irritation.                       |
|      |                               | Citric Acid STOT SE 3; H335: May cause respiratory irritation.                   |
|      |                               | NOEL: 1000 mg/kg bw/day                                                          |
|      | <b>Aspiration hazard</b>      | Mixture: Based upon the available data, the classification criteria are not met. |
| 11.2 | <b>Other information</b>      | None                                                                             |

### SECTION 12: ECOLOGICAL INFORMATION

|      |                                           |                                                                                  |
|------|-------------------------------------------|----------------------------------------------------------------------------------|
| 12.1 | <b>Toxicity</b>                           | Mixture: Based upon the available data, the classification criteria are not met. |
| 12.2 | <b>Persistence and degradability</b>      | No data for the mixture as a whole.                                              |
|      |                                           | Citric Acid Readily biodegradable.                                               |
|      |                                           | Degradation rate (%): 100 (19 days) (OECD301E)                                   |
| 12.3 | <b>Bioaccumulative potential</b>          | No data for the mixture as a whole.                                              |
|      |                                           | Citric Acid The substance has low potential for bioaccumulation.                 |
|      |                                           | log Kow: <3                                                                      |
| 12.4 | <b>Mobility in soil</b>                   | No data for the mixture as a whole.                                              |
|      |                                           | Citric Acid The product has high mobility in soil.                               |
|      |                                           | Log Koc: 3-4                                                                     |
| 12.5 | <b>Results of PBT and vPvB assessment</b> | Not classified as PBT or vPvB.                                                   |
| 12.6 | <b>Other adverse effects</b>              | None Known                                                                       |

### SECTION 13: DISPOSAL CONSIDERATIONS

|      |                                                                                    |                                                                             |
|------|------------------------------------------------------------------------------------|-----------------------------------------------------------------------------|
| 13.1 | <b>Waste treatment methods</b>                                                     | Disposal should be in accordance with local, state or national legislation. |
| 13.2 | <b>Additional information</b>                                                      |                                                                             |
|      | Waste classification according to Directive 2008/98/EC (Waste Framework Directive) | HP4; Irritant — skin irritation and eye damage                              |

### SECTION 14: TRANSPORT INFORMATION

Not classified according to the United Nations 'Recommendations on the Transport of Dangerous Goods'.

|      | <b>ADR/RID</b>                                                            | <b>IMDG</b>    | <b>IATA/ICAO</b> |
|------|---------------------------------------------------------------------------|----------------|------------------|
| 14.1 | <b>UN number</b>                                                          | Not applicable | Not applicable   |
| 14.2 | <b>UN proper shipping name</b>                                            | Not applicable | Not applicable   |
| 14.3 | <b>Transport hazard class(es)</b>                                         | Not applicable | Not applicable   |
| 14.4 | <b>Packing group</b>                                                      | Not applicable | Not applicable   |
| 14.5 | <b>Environmental hazards</b>                                              | Not applicable | Not applicable   |
| 14.6 | <b>Special precautions for user</b>                                       | See section 2  |                  |
| 14.7 | <b>Transport in bulk according to Annex II of Marpol and the IBC Code</b> | Not applicable | Not applicable   |

### SECTION 15: REGULATORY INFORMATION

|        |                                                                                                       |                |
|--------|-------------------------------------------------------------------------------------------------------|----------------|
| 15.1   | <b>Safety, health and environmental regulations/legislation specific for the substance or mixture</b> |                |
| 15.1.1 | <b>EU regulations</b>                                                                                 |                |
|        | Authorisations and/or restrictions on use                                                             | Not restricted |
|        | RoHS – EEE Substance Inventory                                                                        | Not restricted |
|        | <b>GB regulations</b>                                                                                 | Not restricted |
|        | GB CLP – mandatory classification and labelling list                                                  | Not restricted |
|        | PIC (Prior Informed Consent) Regulation                                                               | Not restricted |
|        | Poisons Act                                                                                           | Not restricted |
|        | UK REACH – Grandfathered registration notified substances                                             | Not restricted |

# SAFETY DATA SHEET

## MOULDZAP

ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 2015/830  
AS AMENDED BY UK REACH REGULATIONS SI 2019/758

Date of issue: 12/02/2025  
Version: 1.0

|                                        |                                                              |
|----------------------------------------|--------------------------------------------------------------|
| UK REACH – Annex XVII (Restrictions)   | Not restricted                                               |
| <b>15.1.2 National regulations</b>     |                                                              |
| Germany                                | Water hazard class: 1 (Self classification)                  |
| <b>15.2 Chemical Safety Assessment</b> | A REACH chemical safety assessment has not been carried out. |

### SECTION 16: OTHER INFORMATION

The following sections contain revisions or new statements: Not applicable - V1.0

**References:** Existing ECHA registration(s) for: Citric Acid (CAS No. 77-92-9)  
Harmonised Classification(s) for: Citric Acid (CAS No. 77-92-9), Sodium Carbonate Peroxyhydrate (CAS No. 15630-89-4)

Classification: This Safety Data Sheet was prepared in accordance with EC Regulation (EC) 1907/2006 (REACH), 1272/2008 (CLP) & 2015/830.  
Compiled in accordance with REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

| Classification of the substance or mixture.<br>The retained CLP Regulation (EU) No 1272/2008, as amended for Great Britain | Classification procedure |
|----------------------------------------------------------------------------------------------------------------------------|--------------------------|
| Eye Dam. 1; H318                                                                                                           | Threshold Calculation    |
| Acute Tox. 4; H302                                                                                                         | Threshold Calculation    |
| STOT SE 3; H335                                                                                                            | Threshold Calculation    |

| vPvB  | vPvB: very Persistent and very Bioaccumulative                                                     |

#### Hazard classification / Classification code:

#### Hazard Statement(s)

Eye Dam. 1; Eye Damage, Category 1  
Acute Tox. 1; Harmful by ingestion, Category 4

H318: Causes serious eye damage.  
H302: Harmful if swallowed

Training advice: Consideration should be given to the work procedures involved and the potential extent of exposure as they may determine whether a higher level of protection is required.

#### Disclaimers

Information contained in this publication or as otherwise supplied to Users is believed to be accurate and is given in good faith, but it is for the Users to satisfy themselves of the suitability of the product for their own particular purpose. Thrive Sciences Limited gives no warranty as to the fitness of the product for any particular purpose and any implied warranty or condition (statutory or otherwise) is excluded except to the extent that exclusion is prevented by law. Thrive Sciences Limited accepts no liability for loss or damage (other than that arising from death or personal injury caused by defective product, if proved), resulting from reliance on this information. Freedom under Patents, Copyright and Designs cannot be assumed.

#### Annex to the extended Safety Data Sheet (eSDS)

Exposure scenarios for substances in this preparation are not available.
